Wedding Transport Information

Warren Bus Service have been providing safe, reliable wedding transport solutions in the district for many years. Our staff take great pride in assisting clients with ensuring the smooth running of their day.

This information sheet provides answers to frequently asked questions when considering our services for your wedding.

Where can we go?

Basically, anywhere! Typically, potential clients will contact us first with a basic plan that is then adjusted as necessary leading up to the date. We can service almost any accommodation venue in the Manjimup, Pemberton districts and beyond. Many accommodation venues are not bus friendly so your guests will be required to make their way to the road at the entrance of the property to be collected. We will advise the pick-up location of each venue on the quotation that you can pass on to your guests.

On arrival at the venue guests will be informed of the departure times of return trips. Please ensure that driveways are kept clear to enable to bus to safely turn around. Venue operators will know the typical path taken by our drivers. Any delays as a result of this will add to the time charged. You are more than welcome to have a delegated person board the bus on arrival to provide instructions to your guests.

How many people can we carry?

The narrow gravel roads leading into some venues mean that the largest buses we can safely use carry 43 people. We have four of these in our fleet. We have three 24 seat vehicles that can also be used. Once we are advised of the number of guests and their pick-up locations we will establish the most efficient route and combination of vehicles to transport them. Where possible, we will park buses at the venue for the duration of the wedding to reduce running and therefore the cost of the service to you.

How much does it cost?

As every wedding is different, it is impossible to provide a cost without details of the transfer. However, for one 43 seat bus to deliver your guests from

Manjimup or Pemberton to a venue within 35km and return them in one trip averages \$750. Our rates are calculated on kilometres travelled and driver's hours so the longer the trip is, and the longer it takes, the more it will cost. With additional buses the cost of each bus is calculated separately and combined on your quote. We are located in Manjimup and all running will be calculated from our depot.

Please be aware that a \$200.00 surcharge will apply where any bus requires more than reasonable cleaning on return to our depot. Our full terms and conditions will be provided with your quote.

How do I book?

Once we have provided you with your quote, please check thoroughly that all the details are correct. Once the timetable has been passed on to your guests it is very difficult to change. Written confirmation to our email address with your postal address is all that is required to secure a booking. A deposit is not usually required but may be asked for where the quote totals more than \$1500.00. In the days following the wedding an invoice will be posted to you. This contains payment details. Please note that changes to the service on the day will be charged at the applicable rate.

Once your booking is confirmed, we will provide you with emergency contact details of your driver(s) in the unlikely event you require communication with them on the day.

For further information or to request a quote, please contact us.
